Accessibility disclaimer

We know some parts of our website are not [fully accessible](#).

Some of our PDFs and Word documents are essential to providing our services. For example, we have PDFs with information on how users can access our services.

The [accessibility regulations](#) do not require us to fix PDFs or other documents published before 23 September 2018 unless they're essential to providing our services.

We are working on a disproportionate burden clause for categories of PDF that are not part of an essential service, given the time and cost of making all PDFs accessible and their relatively low levels of usage.
